

## MOB'S SWIFT WORK.

## Lexington Lynching Directed by Masked Captain.

## Doomed Men Die Accusing Each Other.

## Attack on the Jail Watched by a Brother of One of the Victims.

Lexington, Mo., Aug. 18.—The lynching of Charles Salyers and Harry Gates here yesterday morning and the sharp military movements of the mob under the direction of its masked captain were the chief topics here today. Full details of the lynching are now known.

The lynchers came quietly and were perfectly organized. All were masked. On getting into town they went at once to the jail, carrying sledge hammers and chains. A demand was made of Sheriff Thomas to deliver the jail keys and the murderers. The Sheriff refused. Sledge hammers were then effectively used, and the entrance door was quickly broken down. The iron door to the upper corridor was smashed next and then the steel door to Salyers' cell. Scaring Salyers, the mob then went downstairs and broke in the iron door to the lower corridor. The door to Gates' cell was battered open, and Gates was bound.

The mob then hurriedly left, with the prisoners under strong guard, and drove to the agreed place of execution. Arriving there, the prisoners were asked if they had anything to say. They made conflicting statements, each acknowledging that he was at Johnson's on the late night, but charged each other with firing the fatal shot. Both protested their innocence, and Salyers sent word to his mother that he died innocent.

The order was given to pull the ropes. Instantly both men went dangling in the air. Just prior to being drawn up, Salyers charged Gates with the killing. Gates, in reply, told Salyers he was dying with a lie on his lips.

The lynchers dispersed, leaving the two bodies swinging to and fro in the stiff morning breeze. Fully a hundred persons witnessed the lynching. Everything moved like clockwork and the mob promptly obeyed the captain's orders.

Charles Salyers was born in Lexington and was in his 22d year, having cast his first vote in the recent June city election. His mother is in poor health, and he had been of no aid to her. His father is in the Nevada asylum. A younger brother witnessed the battering down of the jail doors this morning.

Gates was 33 years old, and was also born here. He leaves a widow who, it is said, refused to claim his body. He is an ex-convict, and served five years in the Missouri penitentiary for burglary.

The crime for which the men were lynched was the murder of Mr. George W. Johnson on Tuesday morning, August 5. They were stealing chickens and Mr. Johnson had gone out to investigate, when they shot him.

Charles Salyers, white, and Harry Gates, colored, were promptly arrested on suspicion. The latter was found to have been wounded, a number of shot being picked out of his left hip. They were placed in jail.

## The 8 Hour Day

Which the working man has fought for and succeeded in obtaining is something the wife has no share in. Her day begins before his and ends long after it, as a rule, and many a night her rest is disturbed by the baby's fretfulness. The healthiest woman must wear out under such a strain. What can be expected then of those women who are weakened by womanly diseases?

Women who are weak, worn-out and run-down will find new life and new strength in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Sick people are invited to consult Dr. Pierce, by letter. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

I suffered with female weakness about eight years—lost several children but derived no benefit until I began using Dr. Pierce's Favorite Prescription. Now I am strong and healthy. Several ladies here keep the medicine in their homes all the time. I have three girls and they are strong and healthy.

## COUNTED

## Roll of \$28,000 and Agent's Eyes Bulged Out.

## Mysterious Man of Money Makes Shipment From Owensboro to Fordville.

Owensboro, Ky., Aug. 15.—A stranger giving his name as J. H. Boatner, shipped yesterday from here \$28,000 to his own address at Fordville, a town on the Illinois Central railroad, about twenty-five miles east of here. Boatner has been at Fordville, a town five miles from Fordville, for about two weeks. Yesterday he went to the express office at Deansfield and told the agent he wanted to express some money to his own address at Fordville. The agent told him he would do it. When Boatner counted out \$28,000, nearly all of it being in \$1,000 and \$500 bills, the agent was amazed and told the man he could not send more than \$5,000. Boatner then took the money back, and, giving the Town Marshal, John Guess, \$10 to come with him, came to Owensboro. Going to J. G. Burch, the agent of the American Express Company, he slipped his \$28,000 to his own address at Fordville, paying \$14 charges for expressing it.

Boatner stayed here until this morning, when he left. He is about twenty-eight years old. He told persons at Deansfield that his father had given him the money to buy mineral lands. Before Boatner left here he telephoned the express agent at Fordville that he had sent the money and told him not to put it in bank, as he would be after it.

At 9 o'clock to-night a telephone message from Fordville stated that Boatner was there standing out in front of the depot acting strangely, and that the boys were preparing to ride him on a rail. Nobody has any idea who he is, where he is from or what he means.

Boatner later went to a boarding-house at Fordville and left a call for o'clock, saying he was going to Louisville. He refused to take the money from the agent there this afternoon, and the latter has it yet.

William J. Bryan has at last taken part in a real presidential inauguration, though he had to leave the United States to do it, and officiated on the occasion as an ordinary "pen pusher" for an American newspaper. Every man sooner or later finds his level.—Concord (N. H.) People and Patriot.

A Cure for Cholera Infantum. "Last May," says Mrs. Curtis Baker, of Bookwater, Ohio, "an infant child, or our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance. For sale by all druggists."

For Constipation. Take Lyon's Laxative Syrup. An ideal remedy for children and adults. It is pleasant to take and perfectly harmless under all circumstances. Price 25c.

## WATTERSON WITHDRAWS

## Couched in Bitter Language, Wherewith He Describes a Machine-Ridden Democracy.

For some days past there have been persistent rumors on the street and in political circles throughout the State that Henry Watterson would formally withdraw from the race for Governor. These rumors were confirmed this morning by a card in the Courier-Journal signed Henry Watterson. In this card Mr. Watterson says:

When the suggestion was originally made I gave entertainment and consideration. It was represented to me that if I consented I might rely upon substantial unanimity in the nomination convention, and, although I am too old a hand at the bellows to take stock in any such nonsense, I confess that the thought of nullifying the party in a new departure on high broad lines of public policy, lifting the State out of the ruts of faction and restoring it to its former place at the head of the marching column of National Democracy, was not without its allurements to one who has always held office, and officialism in all its forms, in sincere aversion. There was a special attraction in the idea of going out among the Democrats of Kentucky, and from one end of the State to the other proclaiming the doctrine of the "Fathers of Democracy" as the sole hope of the future of the party; of meeting all comers face to face in the substantiation of truth, in the denunciation of falsehood, and in the defense of my own record, and by direct appeal, addressed to the good sense and good feeling, the higher nature and the loftier aspiration of the people, to win a vote of confidence after a life-time of arduous, disinterested service. I did not doubt what their verdict would be after they had heard me, nor do I doubt this now.

Convinced finally, as the result of the premature announcement in the Evening Post of his candidacy, that "practical unanimity" was out of the question; convinced further that success could not be obtained in an effort to drive other candidates from the field, Mr. Watterson determined to withdraw, and in withdrawing he drew this picture of the condition of the Democratic party in Kentucky: "Preference is not for me, brought to the point where I must look the situation full in the eye I am appalled by the conditions which the successful candidate for office must needs meet and overcome; the rogues and cheats he must court, or cozen; the servility he must affect, or practice; the obligations incur; the personal solicitation, ignoble and humiliating; the use of money more or less corrupt and corrupting; for, though he have an overwhelming majority of the people at his back there stands the machine, first to be captured and then to be deployed, with all that it implies."

Although I have never had a machine I am not a stranger either to the character or the efficacy of machine methods, nor do I lack some points of vantage in case I wanted to construct a machine for my own purpose, but no unclean dollar has ever passed my hand, either coming or going, and I am too old to turn rascal. Sometimes, I have declared that I should like the people to try "Governor of Kentucky" on my tombstone but I should still rest in my grave if there were the suspicion of stain upon a letter of that honorable epithet."

Realizing that it was not possible to secure the nomination with practical unanimity or otherwise he decided that he did not want it anyway, and so he formally retires, with equal thanks to friends and foes.—Louisville Post.

A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter stated: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well."

For sale by all druggists.

The change in the Supreme Court.

Any change in the personnel of the United States Supreme Court, is a matter of profound interest and importance to all thoughtful citizens. Ex-Vice President Stevenson once called the Senate "the most august assembly in the world," but that dictum is rather flattering than exact, for the British House of Commons has far greater power than the Senate. There being no written Constitution to limit legislation and no court possessing the legal right to annul its acts. But the Supreme Court of the United States is beyond all question the most remarkable and august body in Christendom. It is the wonder of all Europe, and the most distinctive American institution. It is an independent department of the federal government, and its influence on policy and national life can hardly be estimated.

In view of these facts one reads with "bated breath" that one of the members of this tribunal, Justice Gray, has resigned on account of age and declining health, and that President Roosevelt has appointed the Chief Justice of Massachusetts, Judge Oliver Wendell Holmes, to succeed the retired jurist. Justice Gray has served on the Supreme Bench longer than any one of his associates, excepting Justice Harlan. He was appointed by President Arthur in 1881, and, like his successor, was at the time of his elevation, chief justice of the highest court of Massachusetts.

Justice Gray's retirement closes a long, useful, distinguished and honorable public career. There have been more brilliant lawyers on the bench, but Justice Gray's qualities are of the solid, substantial kind. He has been precise, careful, painstaking, sound and judicial. His opinions have been marked by learning, ability and force. He has had to write many of them in the most famous cases he has been with the majority of the court. In the insular tariff cases his position was not wholly favorable to the claims of the government, but he accepted the conclusion, it not the logic, of Justice Shiras, White and McKenna. Justice Gray has earned the respect he has decided to allow himself, and the people will wish him many years of peace and serene contemplation.

Chief Justice Holmes, who succeeds Justice Gray, is one of the most progressive and independent men on the American bench. He is over sixty years of age, and has had a more varied experience than the average judge. His military career was brief, but highly creditable, and since 1866 he has devoted himself to the law. He is singularly well informed, but learning has not made him a slave to precedent. He is the author of several refreshing and bold dissenting opinions. In so-called labor cases he has taken the modern, advanced, the enlightened view, discarding anachronistic and obsolete notions of the earlier common law. He believes in the right of labor to combine and to use all lawful means in the assertion of its rights. He is opposed to the abuse of the injunction.

Massachusetts loses an eminent, fit and able judge, but her sacrifice is the nation's gain. President Roosevelt is to be heartily congratulated on an admirable and excellent appointment. The result of the change may be notable and far-reaching in more than one direction.

Send for free sample, and try it. SCOTT'S EMULSION, Chemists, 600 Pearl Street, New York.

50c and 75c all druggists.

### DESPERATE DEEDS

Planned and Partially Executed by Prisoners in the County Jail.

Bars of the Outer Wall Cut, and Inner Door Almost Cut From Hinges

A Deed More Desperate Than Jail Breaking Contemplated.

By exercising that diligence and caution that has made him one of the best jailers ever elected by the voters of Ohio county, Jailer Black discovered Saturday morning, that desperate deeds had been planned and attempts made to execute them by the prisoners confined in the north division of the county jail.

Jailer Black had heard an unusual lot of singing, whistling, etc., among the jail birds Friday night, and suspecting that something was wrong, went up in the cell room Saturday morning and made a close inspection of the condition of the cell walls.

On the west side of the north cell, near the floor, a number of the iron bars had been sawed in two.

Jailer Black questioned the prisoners closely, but each claimed to know nothing about the matter.

Later in the day Jailer Black discovered that the hinges of the door leading from the north to the south cell division were practically cut off.

To have this incident understood, we should explain that a woman was the sole occupant of the south cell division, and it was to reach this division that the attempt was made to cut away the division door.

The woman was in no way responsible for the attempt to cut down the door between the cells, and does not yet, perhaps, know the foul designs of the criminal who attempted to commit the act.

A diligent search was made for the tools with which the bars were cut, but they have not been found.

Blacksmiths were called in and the holes cut by the prisoners patched.

Prof. Wm. Foster, Jr., formerly of this county, but now a teacher in Princeton, N. J., College, and Miss Helen Dunham Stewart, daughter of Hon. and Mrs. H. E. Stewart, of Warren, O., will be united in the holy bonds of matrimony on September 3, 1902.

Immediately after the ceremony the young couple will leave for an extended trip through the North, after which they will go to Princeton, N. J., to make their future home.

Prof. Foster was born and reared in Ohio county, and is a young man that the county feels justly proud of.

The best wishes of Ohio county people are with the young couple.

Our voting contest is growing in interest every day. The contest at present seems to be between James Duff, R. H. Miller, James Fitzhugh, and W. R. Carson, for the buggy, and for the watch Misses Artie Wilson, Dena Woodard and Misses Godsey.

However, many votes will be cast before the contest closes in October and it is yet everybody's contest.

**Expensive Lawsuit.**  
The past week in circuit court was devoted almost entirely to the trial of one case, Dan T. Wilson vs K. C. Byers, in which is involved a tract of land worth about \$300.

This case was called Friday Morning and disposed of yesterday. The plaintiff was on the witness stand nearly two days and the examination of the defendant consumed nearly as much time. More than forty witnesses appeared and most of them testified.

The jury was out sixteen hours but failed to agree, standing six to six. The costs in the case including attorney fees will amount to more than a thousand dollars. Heavily and Woodward for the plaintiff and Glenn and Ringo for the defendant.

Fall Festival, Cincinnati, Ohio, September 15-27, 1902. On account of above occasions, round trip tickets will be sold at rate of one fare for round trip, \$6.65, from Beaver Dam to Cincinnati and return. Tickets on sale September 14 and 15, limited to September 27, for return.

**AFTER EIGHTEEN YEARS**  
Mrs. Mollie Wedding Returns and Puts Flowers Upon Husband's Grave.

People familiar with the circumstances were touched with tender sentiments to see Mrs. Mollie Wedding placing flowers on her husband's grave at the Midkiff burying ground, near Sulphur Springs, Wednesday.

Eighteen years ago Mrs. Wedding, who was then the wife of Mr. Andrew J. Wedding, had an attack of apoplexy which resulted in insanity.

She wandered from home, near Sulphur Springs, one night after her husband had retired and was found asleep next morning at Mr. John Taylor's gate about four miles north of Hartford. A few days later she was adjudged a lunatic and sent to the asylum at Hopkinsville. There her physical health improved but her mental condition remained unchanged until about three years ago.

In the meantime, about ten years ago, her husband died, but her mental condition was such that no information of his death was conveyed to her.

About 3 years ago, and almost in a day, her mind came back to her and her thoughts turned at once to home, and all unconscious of the fact that her husband was long since sleeping with the quiet dead, wrote him a letter. She told him of her improved condition, how anxious she was to see him, and asking him to come at once to bring her home.

The dead man's sister opened the letter and wrote her the sad news of her husband's death, and that her children, now grown up, were living in Illinois. With her husband dead and her children gone, the sad-hearted woman did not care to visit her old home, but went at once to live with her children in Illinois.

A few days ago she had notice of the expected death of her father, Mr. Sam Coy—noticed in another column—and came at once to his bedside.

When the funeral cortege arrived at the burying ground with the body of Mrs. Wedding's father, she rushed to the still, cold mound that marked the death-couch of her husband and covered it with flowers and tears.

### ABOUT PEOPLE.

Mr. J. W. Cox, Cronwell, called on us Tuesday.

Mr. John Hines, Rosine called on us Monday.

Mr. Cleve Hler was in Louisville the first of the week.

Mr. Jas. T. White, of Askins, called on us Wednesday.

### Catarrah

Is a constitutional disease. It originates in a venereal condition of the blood and depends on that condition. It often causes headache and dizziness, impairs the taste, smell and hearing, attacks the vocal organs, disturbs the stomach. It is always radically and permanently cured by the blood-purifying, alterative and tonic action of

**Hood's Sarsaparilla**

This great medicine has wrought the most wonderful cures of all diseases depending on impurities of the blood.

Hood's Pills are the best cathartic.

### DARING DASH

For Liberty of Four Desperate Prisoners in Frankfort State Prison.

Four desperate prisoners confined in the State prison at Frankfort, made a desperate dash for liberty Wednesday morning at 6 o'clock, and as a result of it one prisoner lies dead of a bullet wound and another is dangerously wounded.

The prisoners were Wallace Bishop and Thomas Melligan, of Lexington, and Late Brooks, of Morgan county, all murderers and desperate characters, who had been wearing hails and chains for some time for bad conduct, but they had the ankle chains filed to the breaking point so it was an easy task to unburden themselves of the balls when the moment arrived for the attempt to escape.

The prisoners went to their task as usual Wednesday morning but at 6:45 at a signal from Bishop, Melligan and Brooks broke their shackles and rushed upon guard Frank Hiler, killed him to the floor and took his gun.

A. W. Gill went to Hiler's assistance but Brooks threw a gun in Gill's face and told him to throw up his hands which he did. Bishop took Gill's pistol and the prisoners with drawn weapons backed out of the guard's stand.

Gill shouted for assistance and Brooks fired at him. The shot attracted attention and Deputy Warden Madigan and Warden Lillard and his son and several deputies rushed to Gill's assistance with drawn revolvers.

The revolting prisoners took a stand in a dark room and for four hours the prisoners and Warden paroled over terms of capitulation. Ran some, a negro murderer from Louisville had, in the meantime, joined the insurgents, and while in an exposed position Eph Lillard, Jr., took a shot at him, for what purpose we do not understand, and wounded him in the right shoulder.

The prisoners finally, upon the assurance from Warden Lillard of safe conduct to their cells, agreed to surrender which proposition the Warden accepted. While the prisoners were coming out of the room in which they had concealed themselves, Bishop dropped his arms, and when near the walling the contents of a shot gun, in the hands of one of the guards, were emptied into his body, from which he died a few hours later.

Again the shooting seems to have been unnecessary as the prisoners had previously surrendered their arms to the Warden.

After the killing of Bishop it was a matter of only a few moments to lock the remaining obstreperous prisoners in dungeons where they are likely to abide for a time, and the State prison resumed its usual quiet appearance.

### A FAITHFUL DOG.

Like a Loyal Sentinel Watches Over the Body of His Drunken Master.

A few nights ago we had occasion to pass through the hall of the court house here. When we entered the hall all was dark and still. Our footsteps echoed back solemn sounds of loneliness as all dark, covered passages will; but when near the center of the hall the low faint growl of a dog warned us that a human body was near. Even a dog, brute that he is, tells in his bark, growl or snarl, an intelligent story. We knew from this voiceless yet volent growl that his master was near. We lighted a match and a familiar face lay rigid, expressionless and helpless before us.

We were interested; here was an example of faithfulness that the gods must admire. The passerby, felt perhaps a pang of pity for the faithful wife who was waiting, longing for the home-coming of the husband and father, and hurried along, but the faithful dog, unable to comprehend the power of that liquid fire that enriches the cemeteries and populates hell, kept a patient, watchful vigil over his master. One is almost led to ask: In Eternity will the man live and the dog die?

## CENTRAL Business College

Hartford, Ky.  
Riley Building—Third Floor.

## One-Fourth Off

If you firmly believed that we were about to sell seasonable High-Grade Spring and Summer Goods at ONE-FOURTH off, you'd come here to buy, wouldn't you? We pride ourselves on selling good goods, and that they are worth the regular price, is a matter of record. Now if you knew that seventy-five cents would buy a dollar's worth of good clothing, you would buy, wouldn't you? Of course you would if you believed it, but the trouble is that

### You Don't Really Believe It.

So many merchants rant about big bargains that are really snares and print bombastic stuff that shows fraud on its face, that you are about out of belief. We can't blame you, but we reserve the right to prove what we say and we will, if you will give us the opportunity.

We are now unloading our Spring and Summer Stock, and the sale won't last long—better come now if you want to save money. Here are

### Some of Our Inducements:
